

ASX RELEASE – 12 March 2008

US eHealth market briefing by President & CEO of Thelma-US

The President and Chief Executive Officer of Thelma-US, Inc., Mr BP Fulmer, arrives in Australia this week for investor presentations by parent company ICSGlobal Limited as part of the rights issue.

In response to feedback from shareholders following Mr Fulmer's recent appointment, ICSGlobal said today that he will host briefings around Australia over the next week dealing with the trillion dollar US healthcare market and opportunities for ICSGlobal. The briefings will be held on the following dates:

Sydney: Friday 14th March at 2pm
Perth: Monday 17th March at 11am
Melbourne: Tuesday 18th March at 12.30pm
Brisbane: Wednesday 19th March at 3pm

Those interested in attending should register their interest by email to:

update@thelma-us.com

by noon on the day before each briefing. Venue details for each city will be provided by return email.

About BP Fulmer

Prior to joining ICSGlobal, Mr Fulmer was Executive Director of ACS EDI Gateway, Inc., a US Fortune 500 eHealth company, where he was responsible for the processing of 720 million electronic health transactions annually, between 63,000 submitting organizations. He was also responsible for the Florida Medicaid contract with over 2,000,000 beneficiaries, 96,000 participating providers and US\$55 million in annual revenue from processing over 120 million claims annually, representing over US\$12 billion in disbursements. Mr Fulmer is also President of the Medical Banking Institute and member of the board of the Medical Banking Project (see www.mbproject.org). He is also a Member of the Cooperative Exchange executive committee, an association of leading regional medical claims clearinghouses. Mr Fulmer's career includes a wide range of other experience including the acquisition, integration and management of medical billing companies; development and marketing of cash management services including electronic funds transfer; product development and sales & marketing of loan products, cash management and correspondent banking services.

About ICSGlobal and Thelma

Founded in 1990, ICSGlobal listed on the Australian Stock Exchange in 1999 [ASX:ICS]. ICSGlobal's core business is medical banking: simplifying healthcare payments, helping patients, doctors, hospitals, health insurers and government to get paid or make payments. We do this using our medical banking clearinghouse technology, **TheLma** (Transaction Health Exchange Linking Multiple Applications), which facilitates clearing and settling medical bills electronically over the Internet, rather than the stress, time and cost of filling in forms and trying to work out who owes what to whom. ICSGlobal recently added a parallel medical banking services stream to our existing technology strategy with the acquisition of The London Patient Billing Service. Plans are well advanced to replicate this dual-edged strategy in the US. For more information visit www.icsglobal.net, www.thelma.com.au and www.londonbilling.com.
